Good morning Rick,

For now lets visit in early January. It may be that we put you in the slot and if you need to bale, we can have Mike or Nancy cover for you.

Thanks,  
Gary

Gary—

Thanks for your note. I apologize for the delay. I hope you are doing well.

I would very much like to participate, if I'm available. Those days are in the window, however, of when we expect to have family in town (assuming it is safe to do so at that point) as our younger son will be graduating from college later that week.

When can I get back to you with a more definitive answer?

Good afternoon Rick,

I hope you had a good Thanksgiving holiday and are well.

We would like to invite you to present at our 2021 MRL Harmonization Workshop on May 26-27. At this time we anticipate the Workshop to be a virtual webinar, similar to last year, thus you will not need to travel for the Workshop. We would like to have you give an update on

pesticide/MRL issues at EPA, along with an update on any changes and priorities for the Agency from the Biden administration.

As in the past, a presentation of about 20-22 minutes and a Q&A session for 8-10 minutes.

In case you might not be available, please indicate if anyone else could share with us the update.

Regards,

Gary
